Nationality: Bangladesh | **LinkedIn:** [linkedin.com/in/tanvirahmmed27/](https://www.linkedin.com/in/tanvirahmmed27/)

SUMMARY

I am a final-year IT student specializing in Business Assurance at the International Islamic University Malaysia, with strong knowledge in data mining, data warehousing, information visualization, and data science. I am skilled in UI/UX design using Figma and have growing experience in website and mobile app development. I also work with Tableau and Power BI to create meaningful data visualizations and dashboards.

EDUCATION

International Islamic University Malaysia

Bachelor of Information Technology (BIT) (Honors) - Expected Graduation: 2026 (September)

SKILLS

- | | | |
|--|-----------------------|---------------------|
| - Web and App Development | - Database Management | -Power BI, Tableau |
| - Figma (UI/UX design and wireframing) | - Dart, PHP, JS | -Microsoft Project |
| - Flutter | -Laravel | - Firebase |
| - Canva | - Weka | |
| - Problem Solving | - Team work | - Critical Thinking |
| - Project Management | - Creative Design | - Cross Culture |

CERTIFICATION

- **Certification:** CCNA: Introduction to Networks.
- **Certification:** Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate.

PERSONAL PROJECTS

Final Year Project - KitalD Mobile App

Mar 2024 – Jan 2025

Developed KitalD, a secure digital identity app that unifies multiple IDs and enables QR-based verification to enhance convenience and security in Malaysia.

Database Programming - Online Vet Appointment System

Jan 2024

Created a specialized database for pet clinics, simplifying online vet appointment scheduling. Implemented robust functionalities for seamless entry management and designed for practical use in clinics or websites.

Project Management in IT – IQRAC Website**Dec 2024**

Developed and launched a website for IQRAC using Google Sites to promote their activities and raise their funds for student charity.

Game Design and Development – Ninja Samurai Game**Oct 2024**

Developed a 2D pixel-style platformer game in Adobe Animate, featuring three characters and three progressively challenging levels inspired by classic Super Mario gameplay.

Website Development – UIAFOOD**Jun 2024**

Developed a fully functional IIUM food delivery website called **UIAFOOD** using HTML, CSS, JavaScript, PHP, and Laravel, enabling users to browse campus cafés, view menus, place orders, and make payments.

Website Design – EmpowerU**Jun 2024**

Designed the UI/UX for EmpowerU, a mobile platform created for an HCI project to support the B40 community by offering affordable, skill-based courses accessible both online and offline.

Breast Cancer Classification Using Machine Learning (WEKA)**Dec 2025**

Applied supervised machine learning techniques on the Breast Cancer Wisconsin Diagnostic dataset using WEKA. Implemented and compared Naive Bayes, KNN, Decision Tree (J48), and SVM using 10-fold cross-validation, evaluating performance with accuracy, F-measure, Kappa statistic, and ROC area.

VOLUNTEER EXPERIENCE

- Welfare of Rohingya students in Rohingya Education Centre, Gombak **Jan, Dec 2025**
- Community Engagement under Student Development, IIUM **Jul 2025**
- Information and Communication Technology Students' Society IIUM – office of Welfare and International (Sub-officer) **Jul 2024 - Dec 2024**
- KICT Cultural Night Festival 2024 – Assistant Program Manager **Oct-2024**
